Product Guide

[www.norbord.com](http://www.norbord.com)

## An introduction

At Norbord we offer a range of market leading, wood-based panel products including SterlingOSB, Caberwood MDF and Caberboard chipboard flooring. All of our products are manufactured in the UK and in addition all timber used in the production process is fully FSC approved and locally sourced, so both our environment and our economy benefit.

We hope you enjoy browsing through the following pages that present a snapshot of our products. If you would like any additional information such as our technical product brochures or samples or even a sales call, please visit our website.

We consider it our job, not only to make great products, but also to be environmentally efficient and socially conscious; that's why all our timber is locally grown and FSC approved, and all our manufacturing is done in the UK – reducing shipping miles and helping the local economy. To us it's all part of making it better.

**Make it better. Make it Norbord.**

Precision Engineered Board

# More cost effective than equivalent plywood

## Oriented Strand Board

SterlingOSB (Oriented Strand Board) is a high-grade, precision-engineered board that's strong, consistent and value for money. It's the natural successor to plywood – the difference is that with SterlingOSB you know exactly what you're getting time after time: Manufactured from tens of thousands of wood strips placed in cross-directional layers, every millimetre is guaranteed to perform flawlessly right to the edge, right when you need it to. Plus, because we source timber locally from responsibly managed forests, we carry BBA, CE and FSC certifications: Specify SterlingOSB and you're quality assured and environmentally responsible.

## Product Range

- SterlingOSB2
- SterlingOSB3
- SterlingOSB3 T&G
- Sterling Roofdek

The Perfect Construction Partner

# Hard working in all weather and cleans up after itself

## The UK's leading protected chipboard flooring

Caberdek consists of a waterproof, slip-resistant film used with moisture resistant Caberfloor P5. With Health & Safety of paramount importance, Caberdek provides not only extra protection from the elements but a safe working platform and should be considered by specifiers within the Construction Design and Management regulations 1994 and NHBC standards. When correctly installed, Caberdek assists with 'Falls Protection' required within latest regulations. The protective film has high impact, puncture and tear resistance which stands up to intensive on-site traffic.

- Caberfix Accessories

The Original and Best MDF

# A versatile range that is engineered to perform.

## Medium Density Fibreboard

Caberwood MDF is one of the most popular materials used in construction and furniture industries. Precision machining and with excellent finishing qualities; it is the board of choice for carpenters, manufacturers and anyone who likes a job to go smoothly.

In 1979, our Cowie facility was the first to produce MDF in the UK. Today, MDF is one of the most popular materials used in the construction and furniture industries. Norbord continues to develop the MDF product range.

Caberwood MDF is designed to exacting tolerances, to give you peace of mind that the product you are using is engineered to perform.
